Snowless Snow Ball Grosses Large Sum

ELSIE GREGOR

The snowless Snow Ball was a complete success. The gross receipts, it was announced this morning by Miles Coughlin, president of the Ski club, amounted to $500.

From nine o'clock until the wee sma' hours of Sunday morning, the great barn dance floor carried a load of joyous dancers. Over 600 people attended the big ball and the musicians, provided by the Grass Valley Lions club, worked in relays.

The ghost house, devised by Elza Kilroy, entertained nearly 200 people. It was a grand chance for the young sweet things to be scared to death and for the great beeg strong man to save their lives from whooping banshees.

Ghosts who worked hard for more than union hours were Alfred Eddy, Curtis Clark, Joe O'Neill, Jack Wolff, and Ernest Jackson, captained by Elza Kilroy, who induced a maximum of shudders and schrieks for one dime.

Clark McGinnis and Roy Nelson spent a busy night taking tickets at the door. One hundred and twenty five merrymakers paid for memberships and passed into the great hall to trip the light fantastic. All told about 450 memberships were sold.

Final standing of the contestants for Snow Ball Queen were announced. They are as follows:

Elsie Gregor	542,000
Thelma Boreham	531,220
Beth Steger	467,800
Earline Sutton	354,480
Iva Millert	244,600
Ethel Crase	201,460
Katherine Parsons	227,530
Peggy Hoffman	44,900
Lauraine Erway	43,600
Ida Ann Muscardini	24,000

Miles Coughlan and Glen De Yoe, spent all day Friday and part of the night counting these ballots. It was a vertigo kind of a job, but they feel well satisfied with the results.

Bob Tharp crowned Queen Elsie Gregor in his best court-room manner, combing Chesterfieldian grace with the pomp and circumstance of a Supreme Court Justice. The other contenders formed the court of princesses in waiting upon her resplendent majesty.

The contest for the Skis ended in a tie between Beth Steger and Earline Sutton, so the committee gave both girls a handsome pair of skis with ski harness. Each girl sold 65 memberships.

The baseball game yesterday between the Nevada City Elks and the Grass Valley Lions was one long vow. The Lions won 32 to 31. Every run on either side was protested. Every batter up hit a homer and the spectators participated vociferously.

NEVADA CITY HI MUSICIANS WILL GIVE A CONCERT

The annual concert of the Nevada City high school band and orchestra will be given on Monday evening February 12 in the Nevada Theater, it was announced this morning by L. E. Sweeney, music director of the school. Almost seventy student musicians will participate in this annual musical event.

More students are playing in the band and orchestra than in past years and the more advanced have become, in a sense, veteran players, so that music lovers of Nevada City are assured of a feast of good music.

The program falls into three divisions, the beginners band giving the first numbers on the program, followed by the orchestra and concluding with advanced players band.

The beginners band will play a number of marches, waltzes and characteristic selections.

The orchestra will render the following selections:

Fifth Hungarian Dance by Brahms
I Would That My Love by Mendelsohn.
Minuet in D by Mozart.
Nobody Knows The Trouble I've Seen, Negro Spiritual, Horn Solo by Gove Celio.

The band will offer these selections:

El Capitan March by Sousa.
Blue Danube Waltz by Strauss.
Urbana Overture by Roberts.
The Octopus and the Mermaid Serenade King, Bass Solo by Ralph Watters.
Slidin' Some, Trombone Smear, by Fillmore.

Other numbers will be added to the program Mr. Sweeney states, if the musicians now practicing then.

(Continued on Page Four)

Mr. and Mrs. Edd Addington and Mrs. Burr motored to Loomis to attend a Scout Rally. It was an exhibit of camp material. Camp instructions were presented by H. B. Ogle, cheif executive of the Mt. Lassen Area Council.

RICHARD EDDY BORNE TO REST

Funeral services were held at 2:30 o'clock this afternoon from the Elks hall for Richard A. Eddy, 62, former Nevada county supervisor, who died suddenly Saturday evening in a local hospital. Eddy, a committee member of the Nevada county CWA was stricken Thursday afternoon while at work.

He has served 20 years on the Nevada county board of supervisors, leaving the board January, 1933. He also served many years as sewer inspector of Nevada City.

Mr. Eddy was a member and past president of Hydraulic Parlor, N. S. G. W., and up to the time of his death held the office of marshal in the lodge for 35 years. He was also a member of the Nevada City Elks lodge, and a past fire chief of the local fire department.

Richard A. Eddy was the son of the late W. Eddy, who was also City Marshal for years.

Surviving are two sisters, Miss Emily Eddy and Mrs. Lavina Stombs of Nevada City, who will deeply mourn this kindly man's death.

Holmes Funeral Home had charge of funeral arrangements with Rev. H. H. Buckner conducting the religious services. Burial was made in Pine Grove cemetery.

AUBURN CHICAGO MINE INSTALLS ROCKER MILL

Over near Columbia, around 1860, a group of miners devised a means of crushing ore that revealed the resourcefulness of the Argonauts in dealing with the problems presented in reducing ore and extracting gold.

They found a huge water worn boulder hollowed on the top. This had probably been used by the Indians for grinding corn at sometime, but the miners thought they could grind ore in it and they did. They fitted a round boulder into the hollow and by means of long light log attached to the round boulder rocked it in its granite nest and reduced the ore.

At the Auburn Chicago mine, A. E. Sweet, manager has installed a modern mill which embodies the same principle as this old granite rocker worked by the pioneers. It is a steel rocker mill worked by an ordinary engine, with a pair of round steel crushers inside to reduce the ore. This mill is probably the cheapest one of its capacity ever devised and was supplied by the Joshua Hendy Iron Works. It mills ore at the rate of one ton per hour.

The mill is fed by an endless belt ohveyor and the pulverized ore flows over amalgam plates. Only 15½ horse power is required to operate the entire plant. Installation costs are reported to be very cheap.

Among those from out of town attending the funeral of the late Mrs. Josephine Schwartz last Saturday, were Elvin Roberts, Sacramento; Louis Roberts, Auburn; two nices of Mrs. Schwartz, Mrs. Rose McIntosh and mother, Mrs. Roach, Mrs. M. Colvin and friend Mrs. Key of Grass Valley.

ENGLEBRIGHT TO BEGIN CAMPAIGN FOR REELECTION

Congress of the United States
House of Representatives
Washington, D. C.
January 27, 1934.

Mr. Harley M. Leete,
Nevada City Nugget,
Nevada City, California.

Dear Mr. Leete:

Permit me to take this occasion to advise you that in the coming Primary in August, 1934, I will be a candidate for re-election to Congress, from the Second Congressional District of California.

It will be my purpose to continue my fight in the House of Representatives for the great mining, agricultural, lumber, stock, and all other interest of the district.

After the adjournment of the present session of Congress, I will visit all sections of the Congressional District and make an energetic canvas, in order to further familiarize myself with the individual problems of the various localities.

With the best wishes, and thanking you for the many past courtesies extended to me by your paper, I am

Sincerely yours,
HARRY L. ENGLEBRIGHT
MC 2nd District of Calif.

CELIO SELLS 5 CHEVROLET CARS IN FOUR DAYS

Gove C. Celio, Chevrolet dealer for this section, reports that during the last four days, he sold five 1934 Chevrolet sedans to motorists of this city and of Nevada county. He has not yet been able to make deliveries as fast as he sells them for the reason that, even working at top speed, the Oakland Chevrolet headquarters cannot get the cars into the hands of dealers fast enough to meet immediately the tremendous demand for this popular car.

Mr. Celio believes in advertising. Last Tuesday he purchased a special 1934 Chevrolet edition of the Nevada City Nugget and sent this paper broadcast through the county. In the next four days sales of five Chevrolet Sedans were made.

ROSEVILLE HOOPSTERS DEFEAT N. C. HI TEAMS

BY HARLEY LEETE JR.

Roseville's High's gym was the scene Friday evening of three downfalls of all three Nevada City basketball squads. The scores were: A game, Roseville 35, Nevada City 16; B game, Roseville 29, Nevada City 14; and C game Roseville 32, Nevada City7.

Starters on the A team were Steger, Haddy, Celio, Rozinski, and Tamblyn. The team was weakened by the loss of Ralph Pierce who could not attend because of the death of his father.

Starting on the B team were Budi, Stevens, Tuttle, Jones and Ray Steger, with Lopez, Thomas, Polkinghorn and Doolittle as substitutes. Although this was the closest game of the evening, the Roseville boys did not have a very difficult time of it—29-14.

The C team, until Friday night runner-up for Championship of the Foothill League met the worst defeat of all—32-7. Starting against the much larger Roseville hoopsters were Wilde, Schiffner, Elliot, Leete, and Mooers, who failed as a team about as completely as possible not even scoring in the first half.

The Roseville men of all classifications were bigger than their Nevada City rivals, and this and their experience told greatly.

CHILD CALLED BY DEATH

Coroner A. M. Holmes of the Holmes Funeral Home, was notified this morning of the death of a young child of Mr. and Mrs. George Orzalli, residing near La Bar Meadows.

Miss Dorothy Jones of San Francisco came up to attend the funeral of the late Frank Pierce, who was buried Sunday afternoon.

ALL NATURE PROCLAIMS SPRING, BUT LOOKOUT!

In re that ancient and honorable institution tagged Winter by the lexicographers, Deer Creek denizens say: "There ain't any such 'animule." There's a reason—several of 'em.

Bees are buzzing amongst the bloomin' mountain lilies and flags; butterflies in irridescent blue, black, and yellow flit through the golden sunshine of mild-day; fat, moist earth worms wriggle and roll about freshly-turned soil; rose bushes are putting forth buds amid a mass of thick new leaves; the gopher is busy in its nefarious tunnel; and the wasps are leaving their hidden castles to go about their hot point business; the young frogs gambol in the irrigation ditches.

These things convince the Creek folk that it's gardening time, despite legend, tradition, human experience, carnal wisdom, and the calendar. They "figger" and "reckon" and "calculate" that all these creatures of the "lesser order" haven't joined in a set-up of no-winter signs unless they have all gone crazy.

And they don't believe the bees, the butterflies, the "fish worms," the roses and lilies, the gophers, the wasps, and the frogs have all "gone haywire."

ROAD BUILDING TO CITY POOL

A road has been cut around the base of the hill in front of the Garwood home from the city limits of Nevada City to the site of the new swimming pool in Little Deer Creek.

L. Netz of this city has had a crew at work the last few days blasting large granite boulders and ledge matter in order to grade for the extension of the road which will pass back of the pool and out on the other side giving a driveway through to Silva avenue.

Mayor R. J. Bennetts stated today that work is to start on the building of the pool and bath houses as soon as possible and plans are now being made for it. He also said they will clear the willows and underbrush out and only trees will be taken out where they have to in order to give shade and preserve the beauty of the spot.

The flat south of the pool is to be drained so as to make room for a baseball and football field. The park will be an ideal spot for picnics.

Mayor Bennetts states that CWA men were not being employed on this job as money has already been provided by the bond issue for the pool.

A high point in the street in front of the A. Haddy home on Park avenue has been cut to a low grade. The earth and rocks were used as a fill in front of the Garwood, Jacobs and Goede properties, making a splendid improvement.

PETITION OF BUSINESS MEN GRANTED BY P. G. E.

The business men and City Council recently had occasion to petition the P. G. & E., to grant certain concessions which would enable a worthy mining enterprise to proceed with its development and operation program. Without its cooperation the proper operation of the mine would have been practically impossible thereby throwing a considerable number of men out of employment, and preventing a largely increased payroll as the mine developed.

Although the granting of this request by the P. G & E., involves a very considerable amount of time and trouble on their part to work out a solution, and was in the nature of an innovation, the request was granted. This only goes to show that notwithstanding more or less loose public opinion, a large public utility corporation is quick to heed the needs of this community.

Charles Deeble of San Francisco, came up to attend the funeral of the late Mrs. Josephine Schwartz, Saturday. He was accompanied home by his wife Sunday evening. Mrs. Deeble and Mrs. Madge Schwartz are sisters and she has been here for a time with her sister.

Scouts On Tiptoe For President's Message

In the last issue of the Nevada City Nugget, a mention was made of the fact that President Franklin D. Roosevelt had notified National Headquarters, Boy Scouts of America, that on next Saturday the 19th at 9 A. M., Pacific Standard time he will broadcast from the White House over a coast-to-coast network through the courtesy of both the National and Columbia Broadcasting Systems, a call to national service to every Boy Scout in the United States and that it will be necessary that the entire membership mobilize to perform the service the President will ask for.

The effectiveness of the call is to be determined promptly by a system of reporting. Each local troop in the United States is to report without delay to the District Commissioner of their District, the size of its turnout; Scouts, Former Scouts, Scout Leaders, Troop Committeemen, Scouters, Cubs and Cubbers.

When the District Commissioners of our Area have received the reports from all their units in their districts they will immediately notify Tahoe Area Headquarters by telephone the size of the turnout in their district. Each Area Council Headquarters when it has received complete information concerning its territory will report by telegraph to its Regional Office and these 12 offices in turn will telegraph immediately to the National Office in New York City the combined strength of the Regional mobilization. National Headquarters will then transmit to President Roosevelt the combined report covering the United States. It is the desire of the President that the final report be in his hands before the end of the day, therefore it is of the utmost importance that local units and District Commissioners work fast. It will be interesting to know which Region will have the distinction of sending the first complete report to the national office.

The values of this great nationwide mobilization of Scouts will be far reaching. In the first place, it will present in a dramatic way to the public a demonstration of the Scout motto" Be Prepared." It will furnish an actual demonstration of the service that the Boy Scouts of America as a highly effecient and well organized body can render in an emergency. The President's message coupled with the mobilization and subsequent "Good Turn" to the nation will have a vitallizing effect on Scouts and Scouters. The fact that the President of the United States, with the manifold responsibilities of his high office, yet gives his leadership gladly to the Boy Scout movement will prove an encouragement and inspiration to every man holding a position of leadership in the Boy Scouts of America.

Surely if our President can give liberally of his time and energy to the cause of scouting, every one connected in any way with the Boy Scout organization will gladly rededicate himself to the cause of American boyhood. No sacrifice will be too much, no service too great. We all know America's future lies in its youth.

Arrangements have been made by Bev C. Barron, chairman of the committee in charge of the local presentation of the President's broadcast for the use of the Elk's hall next Saturday morning at 9 o'clock. All Boy Scouts are expected to be present and members of the Scout Council, Mayor and City Council are urged to attend and hear this broadcast.

SCOUTS HIKE TO MEGETTA RANCH

Last Saturday morning at 9:30 Scout Master Edd Addington and Junior Assistant Scout Master Albert Pratti led eleven Boy Scouts on a 24 mile round trip hike to the Dominick Mezetta ranch cabin on the Greenhorn river, east of Nevada City, where they spent the night. This was another specimen hunt for their Scout Rally and they brought in an old Indian mortar in good condition. These long hikes also put the boys in good physical condition for spring and summer work.

Chef Pratti asssited by Dick Bennett and Dick Marriott prepared the evening meal and breakfast and received praise for their excellent cooking. Rain drove some of the boys, sleeping in an old shed into the cabin during the night.

After scouting around Greenhorn during the morning they started home, arriving a little before noon.

The following made the trip: Scout Master Edd Addington, Junior Assistant Scout Master A. Pratti, Ainsley Fouyer, Bob Tobiassen, Bob Small, Carl Tobiassen Jr., Llard Gates, Jerry and Jack O'Neill, Richard Marriott, Richard Bennett, F. Robbins, and bill Elkus.

Four or five of the scouts and Scout Master Edd Addington are preparing for a hike to Red Dog next Sunday.

Five new members were taken into the Scout order last week and great enthusiasm is being shown in the work.

The scout meeting which was scheduled for Thursday evening has been changed to Wednesday evening.

STARR, PRESIDENT OF MINING ASSN. RESIGNS

George W. Starr of Grass Valley last week announced his resignation from the presidency of the Mining Association of America, the resignation to take effect Ferbuary 1.

Mr. Starr stated that the office demanded too much of his time. That he expected to visit Europe in the near future and would be unable to act on many important matters durting his absence.

Tom Riddle of Sacramento attended the funeral of the late Frank Pierce Sunday.

TWENTY EIGHT HIGH STUDENTS ON HONOR ROLL

Twenty-eight high school students in the four divisions placed their names on the honor roll as the result of the final examinations for the first term last week. This was announced today by Principal H. E. Kjorlie. Eighteen of these won a place in the Honor Society and 12 were made members of the California Scholarship Federation.

To attain the honor roll, students must obtain at least ten points as follows: A 3 points; B, 2 points; and C, 1 point. Music, typing, mechanical drawing each count for one half of the above. No student may fail in any subject and attain the honor roll. The list follows:

Freshmen—Norman Anderson, Vernie Deschwanden, Adele Joerschke, Wylie King, Dick Tuttle, Margaret Wyant.

Sophomores—Fabien Joyal, Ida Norton, Walter Warnecke, Alberta Watters, Eleanore Willoughby, Covey Willis, Ceceila Woods, Sally Robinson.

Juniors—Audrey Davis, Isabel Dunlap, Irene Felice, Oral Keller, Harley Leete, Warren Mooers, Alice Ohannesian, Margery Williams.

Seniors—Joe Cicogni, Beryl Godfrey, Erma Keller, Norma Kessler, Margaret Phariss, Dorothy Thomas.

HONOR SOCIETY

The following are the members of the Honor Society and of the California Scholarship Federation for the semester ending January 26, 1934:

Freshmen—Norman Anderson, Adele Joerschke (CSF), Wylie King, D. Tuttle.

Sophomores—Betty Tefft (CSF), Walter Warnecke (CSF), Eleanore Willoughby (CSF), Cecelia Woods (CSF), Covey Willis (CSF).

Juniors—Isabel Dunlap (CSF), A. Ohannesian (CSF), Harley Leete, Franklin Tuttle, Margery Williams (CSF).

Seniors—Joe Cicogni (CSF), Beryl Godfrey (CSF), Erma Keller (CSF), Margaret Phariss (CSF).

Mrs. Pinckney Armstrong has returned from San Francisco, where she underwent treatment in a hospital. She is much improved. Her nephew, A Ramsey of Wichita, Kansas, who has spent the last three months visiting her, has returned home.

A 1934 Forecast

Roger W. Babson has built up on eviable reputation in the past 30 years as a business forecaster. His accuracy is too well known to the general run of citizens to require any explanation of how he reaches out into the future and tells exactly what to expect.

He has made his business and financial predictions for 1934, and no one can read his forecast without feeling reassured and more optimistic. He declares that the NRA is not a passing fancy but will be continued as a permanent policy. There will be greater cooperation, he says, between the Roosevelt administration and business this year, which should improve conditions. He also says there is little need for fear this year, for it will be another step on the upward swing, with plenty of opportunities for those who are earnestly seeking the way to better times. It will not see a boom, such as the days of 1929, he declares, but rather a strengthening of the entire business and financial structure along sane lines.

Babson's is among the most optimistic of all forecasts made for 1934. From one so conservative, and backed by his record of having predicted accurately in years gone by, it ought to be a big factor in cheering even the bluest of those among us.

But to make his forecast come true there is work to be done. It will not be an easy year on loafers.

Speaking Of Whales

I have here a tale from San Pedro—
An astonishing tale of a whale;
Though perchance when you've heard it, my brother,
You'll dub it a whale of a tale.

Now, whales have soft, vulnerable tummies,
According to longshoreman, Hicks,
And down in the depths of the ocean,
"Believe it or not," there are ticks!

So, when noting unseemly behavior
On the part of our sea going whales,
Think not the poor creatures are locoed,
There are ticks clamping down on their scales.

When a whale spouts in mad desperation
And swishes about thru the tide,
Let sympathy dictate your actions;
There are ticks boring into his hide.

When he makes a bee line for the mainland,
And beaches himself on the shore,
Dash forth with your first aid equipment
And succor the beast, I implore!

Oh, ask me not brother, I pray thee,
How wood ticks live down in the sea;
The why and the how and the wherefore
Of marine life are too deep for me.

I'm simply recounting a story,
Related by longshoreman, Hicks;
Who, if judged by appearance and—gestures,
Most certainly knoweth his ticks.

A. Merriam Conner.

NOTE—A whale caught wallowing about in the sandy shore at San Pedro was found to be infested by ticks. This wierd tale has been vouched for.

ERRATUM—IT WAS ARTHUR GUITERMAN WHO WROTE: "SHAI-KI, THE BLUE JAY"

The poem "Shai-Ki, the Blue Jay," which appeared on page 2 of Friday's issue of the Nevada City Nugget, was written by Arthur Guiterman and appeared in the San Francisco News sometime ago. The credit for authorship was given Mrs. A. Merriam Conner, in Friday's reproduction of the poem, through a misunderstanding. Mrs. Conner sent the poem to The Nugget asking that something be done to save the blue jays from the wrath of sportsmen who have blacklisted the bird, quite wrongfully in the opinion of scientists who have studied the bird's habits and dietary. Guiterman's poem calls attention to the courage and beauty of the blue jay and should aid in enlisting all lovers of birds in its defense.

o

PROTECT COLD MOTOR

A cold engine should be run for a few minutes slightly in excess of idling speed, according to the Free Emergency Road Service of the California State Automobile Association. This procedure will allow the lubricating oil to establish a film between moving parts and is a practice which will add materially to the life of a motor.

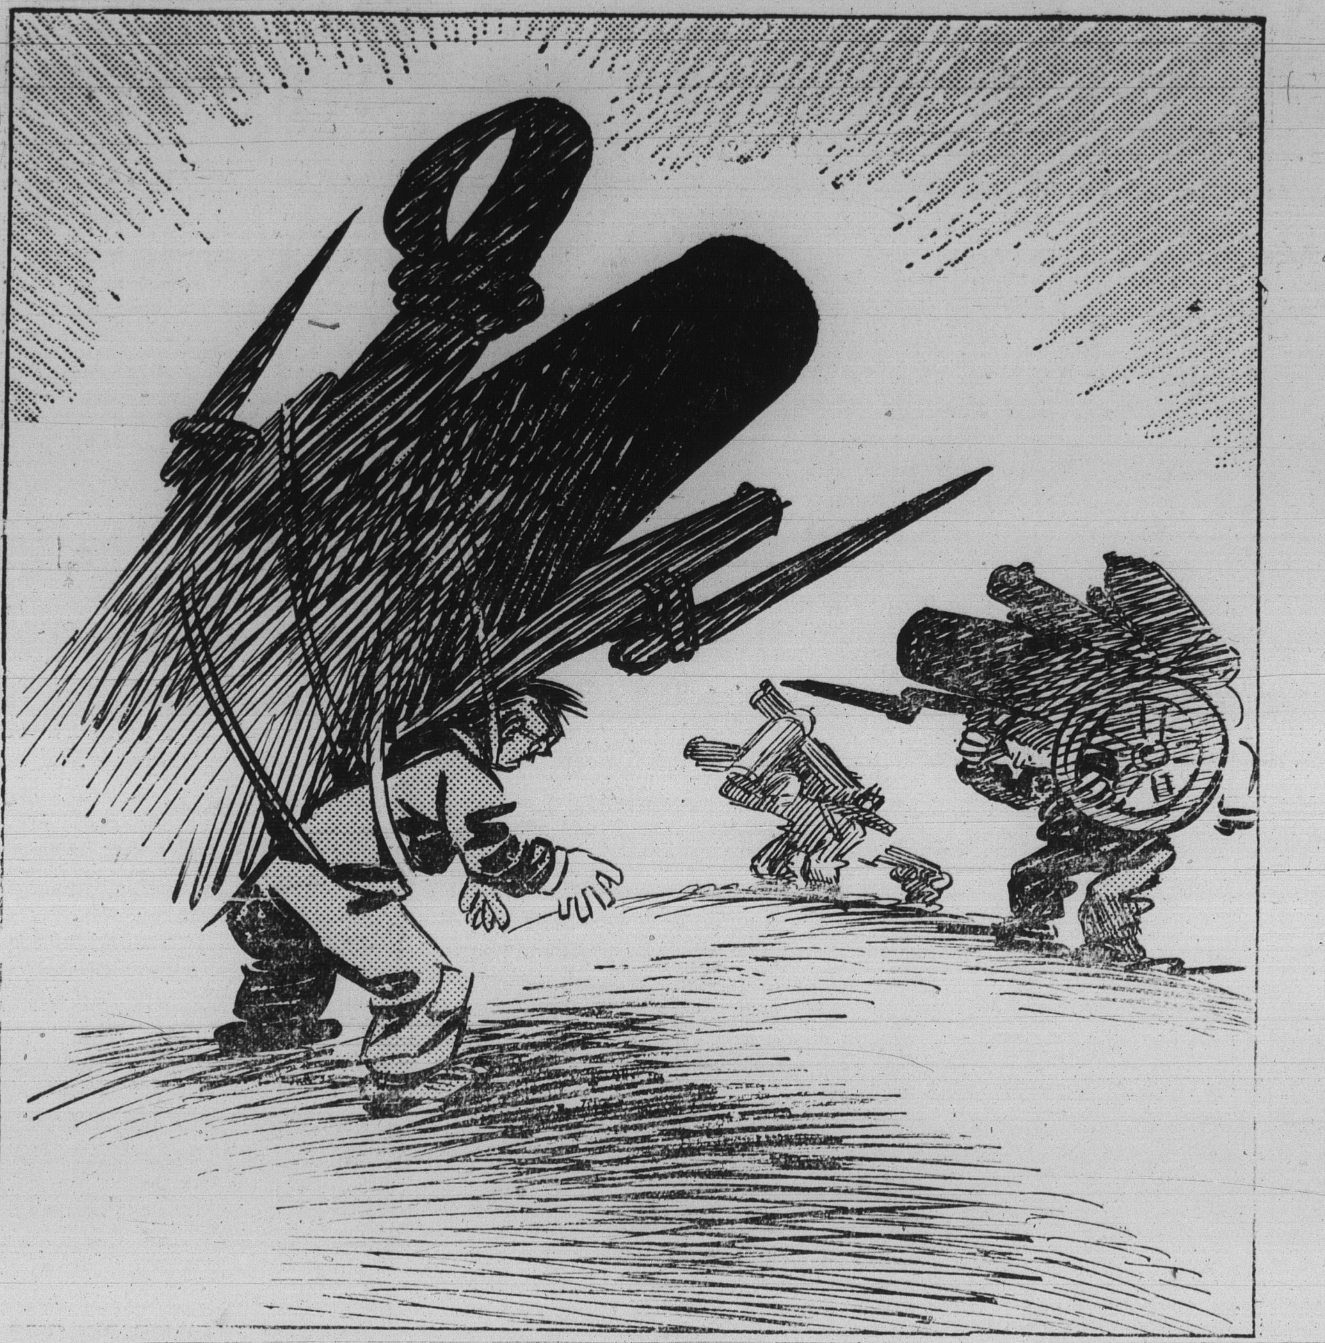
Time For Another Armisiice



WEEKLY COMMENT

By
CHRISTIAN ANDERSEN

From the city limits of Nevada City to the Middle Yuba river is approximately 19 miles. On this stretch there seems to be no regularly assigned traffic officer. I have personally driven the road over 400 times and in that time I have seen but one accident which might be attributed to carelessness and it would have happened with or without officers. This road is by no means an easy road to drive. It seems a tribute to the average driver that he drives carefully even when not under the watchful eye of our honored minions of the law.

Occasionally there are slightly, controversial talks between people in regard to the present recovery program. Some say it is fine and a few say it is the ruination of our nation.

Two men were talking about these things the other day and I was privileged to hear the debate. One said: "Well we only owed $10.00 per capita three years ago and now we owe $300.00 per capita." To which the pro, said: Well! hell if I only owe $300.00 I wouldn't worry much, especially if the time for payment was as long as I know this will be." Said the one who was against: "I don't suppose you care if the debt is saddled on your children?" The pro evidently stung by this reflection on his love for his children, said: "I think as much of my family as any man living. But if those children refused to help me in case of necessity, I should feel very badly about it. If they refuse to carry on in a patriotic fashion after I am gone I shall help the Angel at the gates, to wherever we go to keep them out." The one against seemed to be squelched. I thought the story good enough to pass on.

At the moment it seems correct to state that the Central Valley Project will NOT be financed by the government as stated by the proponents of the deal before it was voted on.

The government is probably averse to putting $170,00,000 into a project which cannot or has no present economic value and would be no immediate public benefit. I do not wish ever to do much prognosticating but here is one, the Central Valley project will not be built.

Lest you worry about minor expense I hasten to explain that the special election only cost the state a cool half million.

But then the broadcasting stations made money in the pro and conners race to the microphone to tell the dear peepul of the swell deal rigged up for them to vote on.

The old Young home in San Francisco still stands on California St., I said the OLD YOUNG home oh! you got it the first time, that's good.

What follows is not intended except as an abstract statement, and be it said that the writer has had mining experience in both promotional and actual CLAMGUN contact with it.. So now here is where I differ from some pretty fine fellows. The mining industry has splendidly held its own during arduous times and it is my opinion that to ask help help from the government because many other projects are so doing would be to undermine the glorious traditions of this basic industry. To ask a loan of a 100 or 200 million at this time does not seem logical, pardon me if we differ.

Of all the recent music which has caught my fancy, The Last Roundup, holds first place for that kind of composition. I'll sing it for you sometime.

Wouldn't it be fine if this very Nevada City could build a new grammar school (very badly needed) and also the required high school gymnasium and auditorium. The government, it is reported, stands ready to pay one third the costs and to lend the rest of the money on long terms and small interest.

There was a radio appeal by John McCormack in connection with the maintainance of the New York Philharmonic Orchestra, greatest in the U. S. A. $500,000 is asked for, to maintain the orchestra—for three years.

I think that in our tax calculations we should incorporate a tax for music so that we would be sure of this item in our cultural setup. The amount would be so small that we would not notice it, and if we did notice it, we would consider it well spent.

AUTO OWNERS IN DRIVE TO CHECK U. S. TAX ON GAS

Action by the present session of Congress for removal of the federal one cent gasoline tax and other special federal taxes on motorists is the aim of an organized effort which has been launched by the California State Automobile Association. The motorists organization is enlisting the aid of other A. A. A. motoı clubs in the west in a concerted appeal to Congress for such relief. The Automobile Association has made a direct plea to California Senators and Representatives at Washington. The attitude of the Association Board of Directors was summed up in a telegram sent last week by D. E. Watkins, secretary and general manager of the Association, to Representative William E. Evans of Glendale, a member of the House Ways and Means Committee. The message read:

"This association of California motorists is strongly opposed to the continuation of federal taxes on the acquisition and use of motor vehicles. There is no good logic for singling out motor vehicle owners for this form of taxation and we urge you to oppose it in committee.

"The automobile industry, struggling to get on its feet, is being handicapped by this tax burden. Motor travel, which will materially aid in bringing back better conditions, is being suppressed.

"Our attitude of opposition is particularly directed to the federal one cent gasoline tax. This tax constitutes an invasion of a field of taxation which by initiation, custom, and practicability belongs to the various states. When first levied by the federal government it was stated to be only temporary. We now ask its removal. Two million California motorists are looking to you for relief frm this unwarranted burden."

The total motor vehicle tax bill of the nation soared to an all time high level in 1933, according to figures cited by the Automobile Association. All told, the special user taxes, federal, state, and local, paid by motor vehicle owners during the year amounted to approximately $1,180,-000,000, or $130,000,000 in excess of the total of such taxes paid in 1933.

MILDEST JANUARY IN CAMPTONVILLE RECORDS

CAMPTONVILLE, Feb. 3.—The monthly weather report of Elmer S. R. Hall, local representative of the United States Department of Agriculture, Weather Bureau, shows January to have been one of the most mild winter months in the history of this section. Rainfall for the month amounted to only 5.94 inches, with a total snowfall of only 1 inch for the month. Temperatures were very moderate; the warmest days ranged in the 70's and the coldest day is registered 28 degrees on the 11th and 24th.

o

Judge Raglan Tuttle is presiding in the superior court in Modesto this week under the assignment of the State Judicial Council. He will hear evidence in a case involving water rights on the San Joaquin river.

Nerves Do they torture you by day? Keep you awake at night?
What is it that keeps hospitals open and doctors busy? NERVES.
What is it that makes your face wrinkled and makes you feel old? NERVES
Nine times out of ten it's NERVES that make you restless, worried, haggard.

Nerves Do they make you Cranky, Blue--give you Nervous Indigestion, Nervous Headache?
When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still.
Nerve Strain brings on Headache.
Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

Nerves Do they interefere with your work; ruin your pleasure; drive away your friends?
You're cheating yourself and the man who pays you if you work when your NERVES are not normal.
You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank.

Quiet your nerves with
DR. MILES' NERVINE
Liquid and Effervescent Tablets

MANY MOURN DEATH OF FRANK E. PIERCE

Frank E. Pierce passed away last Friday morning, after an illness from which he suffered intense pain with great fortitude.

He was born June 23, 1877 in North San Juan and when a small boy came to Nevada City with his parents, Mr. and Mrs. J. E. Pierce. He had lived here ever since, attending the local schools. Upon reaching manhood, for a time he was employed in the old Champion mill. Later he was a teamster driving freight wagons and stages in Nevada and Sierra couties.

Mr. Pierce was a jovial, generous character and made friends readily.

He married Miss May Eden of Indian Flat 35 years ago. Eight children, four boys and four girls, all of whom survive, were born to this happy union. The home life of this family has been ideal and the husband and father is deeply mourned.

The children are: Eugene of Salt Lake City; Mrs. W. E. Riddle, Mrs. E. M. Rodgers, and Mrs. R. L. Howard of Sacramento; Eugene Pierce of Gridley, and Mrs. J. J. Jackson Jr., and Holden and Ralph all of Nevada City. There are also five sisters, Mrs. J. F. Tredennick, of Nevada City, Mrs. May Tully of Sacramento, Mrs. E. A. Rasey and Mrs. Kate Wright of San Francisco, and Mrs. H. C. Berggren of Los Angeles.

Funeral services were held at 2:00 o'clock Sunday afternoon from the Holmes Funeral Home, with the Rev. Charles Washburn of the Episcopal church officiating. Burial was in the Pine Grove cemetery.

DREDGER MAKES TEST OF CHAMPION TAILINGS

A Nugget representative visited the dredger and scene of its operations on the Champion mine tailings west of Nevada City's limits Sunday afternoon. A great deal of money has been spent for machinery, and for clearing away brush and willows. A ditch has been dug on the south side of the mine tailings to divert Deer Creek into a safe channel and pipe laid to carry water to a good sized pond where the dredger is anchored.

The machinery is located at the lower end of the big tailings pile and will work upstream.

Three men were busy about the dredger yesterday and had just completed forming a pond below the dredger pond. A test run of sand and gravel has been made recently. All machinery is electrically equipped. Anderson and partner are operating the plant.

BANK OF AMER. PAYS 3 MILLIONS INDIVIDENDS

Purchasing power in California was augmented by almost $3,000,000 today when checks covering the current dividend disbursement on Transamerica Corporation capital stock were received by the stockholders of the company.

The dividend checks were mailed to approximately 225,000 Transamerica stockholders, most of whom are residents of California. The dividend which inaugurated the resumption of regular payments by the corporation amounted to 12½ cents a share.

On the basis of the number of shares outstanding as of December 31 last, the aggregate amount of dividends being distributed at the present time totals $2,960,000.

Between the close of the year 1933 and January 18, 1934, the market value of the company's investments in bank stocks, increased approximately in marketable securities, including $4,400,000.

OFFICES, COURT ROOM OF JUDGE WINBURN MOVED

The Grass Valley township justice court, Grass Valley municipal court and private law offices of Judge Oscar E. Winburn will be moved to 152 Mill street, second door of the Campbell building, over the Golden Rule Stores, Inc., eary this week, probably Tuesday or Wednesday, according to Judge Winburn.

The courts and law office are now located on the second floor of the city hall building on West Main st. Today regular traffic and municipal court day will be held at this location as formerly, the removal to the Mill street location taking place tomorrow and next day.

Workmen have been preparing the Campbell building quarters for the past few days, completely renovating the interior with new paper and paint. Linoleum and carpets will be laid and office furniture placed.

The new offices are far more commodious and lighter than the present location and will enable jury cases to be heard within the building instead of transferring to a larger place as is the present custom.

STOCKTON HILL STRIKES ORE ASSAYING $12,000

Ore that assayed $12,000 a ton was the sensational strike made last week in the Stockton Hill mine, bonded to the Grass Valley Mining Exchange. The mine is only a few yards from the Auburn highway, seven miles south of Grass Valley. The ledge is about 5 inches wide, but the gouge also carried values and the serpentine hanging wall shows free gold. The shaft is down 160 feet and the management is drifting toward a larger ledge. The property belongs to William Hays.

o

during the holidays.

Francis Finnegan of San Francisco came up Wednesday and is preparing to open a law office in Nevada City.

CAMPTONVILLE

By ACTON M. CLEVELAND

CAMPTONVILLE, Feb. 3.—Mrs. Grace Peterson motored to Grass Valley Friday on a short business visit.

Mr. and Mrs. Acton M. Cleveland left Monday for Sacramento called there by the illness of their daughter Miss Earlyne Cleveland.

Mr. and Mrs. Richard C. Clendenin motored to Grass Valley Friday on brief business.

Mr. and Mrs. Fred C. Kendall left Wednesday for Hammonton to reside, where he will be employed. The community regrets their leaving. A farewell party was held for them Monday evening at Picks Retreat.

Mr. and Mrs. Fred B. Hanson and Mr. and Mrs. Edward Havey motored to Grass Valley Tuesday on a short visit.

H. C. Smith motored to Sacramento Monday on a brief business visit.

Lee Bullington, local contractor, is busily engaged in putting in a new pipe line in the Camptonville Water Works from Petersons up to above Mackeys.

H. R. Evans of Sacramento was in town Tuesday on business.

Charley H. Greene of Grass Valley was a business visitor in town Thursday.

Floyd Cartwright of Grass Valley passed through town Thursday from Sacramento enroute to Downieville.

William Polkinghorn of Nevada City was a business visitor in town Wednesday.

R. C. Clendenin is engaged laying a new floor in the grammar school building.

HEARING TO BE HELD ON SAILOR FLAT WATER

The Division of Water Resources will hold a public hearing on an application to appropriate water by Edward Bickel of Nevada City on Wednesday, February 7, 1934, at 10:00 o'clock A. M. in Room 401 Public Works Building, Sacramento, California.

The application is for the appropriation of 38 cubic feet per second throughout the entire year from Greenhorn Creek, a tributary of Bear River, in Nevada county to be diverted through the Sargent and Jacobs Ditch for mining and domestic use at the Sailor Flat mine, of Fenton Gold Mining Company about one mile north of Quaker Hill.

The application is protested by the Quaker Hill Gold Mining Corporation, George E. Poor, S. I. Volz and A. R. Kroll all of Nevada City, who claim interference with their prior rights to the use of said water.

Hearings before the Division of Water Resources are open to the public and appearances thereat are not limited to parties of record interest in the application heard. Mr. Harold Conkling, Deputy State Engineer, will act as Examiner.

American Heroines

By LOUISE M. COMSTOCK

Betty Zane

IN 1770 Capt. Ebenezer Zane, following the westward trail established fifty years before by Governor Spotswood and his Knights of the Golden Horseshoe, settled at the mouth of Wheeling Creek, in Ohio County, Virginia. Here he prepared a home and later brought to it his family and his sister Elizabeth, a pretty girl in her early teens, who had had a year in school at Philadelphia and learned her way about in the society back East. Within a few years other settlers followed him, and but sixty feet from his cabin door rose the stout wooden stockade of Fort Henry.

In 1770, during the border warfare that followed the slaying of the Indian chief Cornstalk, a menacing band of over four hundred Wyandots, headed by that strange white man turned red, Simon Girty, rose out of the surrounding forests and descended upon the little garrison. The settlement took refuge in the stockade and prepared to meet the attack. There were available exactly 42 fighting men. Thirteen of them were dispatched under Capt. Samuel Mason to do battle with the Indians outside the stockade. They were massacred. Girty demanded surrender. But Captain Zane determined to fight to the finish rather than yield to "that man."

For long days and weary nights the siege continued, each passing hour taking its costly toll of provisions, ammunition, life. There came a time when there were but twelve men left to defend the fort. And then, to destroy what little hope was left, came word that the supply of ammunition was exhausted. The only available supply was a keg of powder stored in the Zane cabin outside the stockade.

It was Betty Zane, sixteen at the time and fair to look upon, who volunteered to get it. Anxious faces pressed to the portholes to watch her, as she slipped out of the gate, into the clearing. The red men, peering out of the protecting forest, stared in astonishment and forgot to fire. In safety Betty reached the cabin and secured the precious keg of powder. But her journey was only half completed. As she started back the enemy, as if suddenly realizing the significance of her errand, opened fire. Stumbling under her burden, saved only by a miracle from the rain of bullets and arrows, Betty again crossed the open space and reached the gate and safety. With its new supply of powder Fort Henry held its own until the next morning, when Colonel McCollock brought aid from Short Creek.

SOCIAL EVENTS

Legion Auxiliary to Initiate Colfax Class

The local American Legion Auxiliary is invited to Colfax Monday evening February 5 to initiate a class into the Colfax and Auburn units. All members are invited to attend The Legion will also initiate a class for Colfax at the same time.

The Glee Club is invited to sing. The next regular meeting of the Auxiliary will be on Wednesday, February 14, when a "Kid Party" will be held. All members are to wear "kiddie" clothes and bring a lunch with them. A good time is assured.

Wyoming Tribe To Initiate Class

Wyoming Tribe of Red Men are initiating a big class into their order Thursday evening. The adoption degree will put on the work.

George Falmbigl, chef, will prepare a tasty collation for the members ofter the meeting.

A delegation from Weimer Tribe of Grass Valley is to be present for the ceremonies.

COURTESY SACRAMENTO BEE

The picture of the ten candidates for Queen of the Snow Ball which appeared in Friday's edition of the Nevada City Nugget was printed through the courtesy of the Sacramento Bee.

W. B. Celio is suffering from an attack of rheumatism.

Ponemah Council To Raise Chiefs

Officers and members of Ponemah Council, Degree of Pocahontas, are preparing for Raising the Chiefs this evening in Pythian Castle. Ceremonies will be conducted by District Deputy Lenore Coughlin.

Mrs. Nettie Gildersleeve, chairman, has planned an interesting social time after the meeting.

This is the first meeting of the Council in the Pythian hall. Refreshments are to be served at tables decorated with St. Valentine favors.

Birthday Party for Little Lucille Danos

Mr. and Mrs. George Danos gave a party last Saturday in honor of the tenth birthday of their little daughter, Luciile Danos at their home on Main street.

There were seventeen boys and girls present for a happy time spent in playing games. Lucille received a number of nice birthday gifts.

Dainty refreshments were served at the close of the afternoon and all departed wishing their little hostess many happy returns of the day.

P. T. A. Membership Contest Decided

There was a good attendance at the Parent Teacher Association meeting last Friday afternoon.

When names had been counted in the membership contest it was found that Mrs. Clematis Davis, as captain, had won. The P. T. A., now has a membership of 75. The losing side is to entertain the members the first Friday in March.

The Eeventh and Eighth grades of the Washington grammar school are to present their program February 23.

Mrs. C. Tobiassen reported that the Cub Scouts are being organized under the leadership of Mr. Merriam. There was also discussions regarding organization of girls, either the Girl Scouts or Camp Fire Girls.

Plans are going forward to hold an animal or pet show sometime in April. All children with pets should be grooming them as prizes are to be made for the best entries.

About ten members are planning on attending a District Convention meeting in Lincoln tomorrow afternoon.

TEN YEAR OLD GIRL BECOMES CRACK SHOT

Catherine Tognarelli, 10 year old daughter of Mr. and Mrs. John Tognarelli, shot for the fourth time last Sunday afternoon at the Skeet Shoot making a score of 14-25 a fine record for one so young.

She shoots in regular skeet form, not placing the gun to her shoulder until the target appears. In her score of 14 she broke some of the most difficult shots on the field.

Catherine shoots a 20 gauge gun which is a big handicap against shooting large bore guns.

This score of 14 is higher than the scores placed in the Northern California Ladies' event last year.

This splendid work should place her in fine form to enter the events that come up this year.

A. C. LARSON TO MOVE TO NEW LOCATION

A. C. Larsen has rented the space made vacant by the removal of the Colonial Beauty Shop in the Union Building at 106 Pine Street and plans to move his barber shop from its present location to the new one next Sunday.

Mr. Larsen has been in the barber business in Nevada City 21 years, for the first 14½ years he was with Will Reynolds in the National Hotel, and later where the Schreiber liquor store is now located. Seven years ago he started in business for himself in the place where he is now situated.

HI ATTENDANCE RECORD LOWERED BY MEASLES

Average daily attendance for the first semester at the high school was lowered by the epidemic of measles and other ills that affected the students during the latter part of the semester, Principal H. E. Kjorlie states. The total registration for the semester was 223, the present enrollment is 206, and the average daily attendance for the half year is 190 plus.

Walter Bosworth Jr. of San Francisco is visiting his uncle and aunt, Mr. and Mrs. C. E. Bosworth in Nevada City.
